

I would restructure the landing page to feel like a premium membership community rather than a software platform. The flow below is designed to take visitors on a journey—from understanding the vision, to seeing the value, to trusting the brand, and finally joining.

2. WHY THE ALLIANCE?

Heading

More Than a Membership. A Global Community Built for Women in Intellectual Property.

Content

Women have long played a vital role in shaping innovation, protecting brands, advancing technology, and driving the future of intellectual property. Yet opportunities to build lasting international relationships, exchange expertise, and collaborate beyond conferences remain limited.

The Women's IP World Alliance has been created to bridge that gap.

Launching in 2027, the Alliance transforms an annual publication into a year-round international community where members can connect with peers, access world-class learning opportunities, develop professionally, and become part of a collaborative global network designed specifically for women in IP.

Whether you are an experienced practitioner, a rising professional, an entrepreneur, an academic, an in-house counsel, or a student beginning your journey, the Alliance provides the environment, opportunities, and connections to help you thrive.

Four Pillars

Connect

Build meaningful relationships with women from around the world.

Collaborate

Develop cross-border partnerships and referral opportunities.

Grow

Access education, mentoring, and professional development.

Lead

Increase your visibility and become part of the future of the profession.

3. BUILT ON A STRONG FOUNDATION

Heading

Powered by The Women's IP World

Content

The Women's IP World Alliance has been developed by the team behind *The Women's IP World Annual*—one of the world's leading publications celebrating women across intellectual property.

For years, the publication has connected outstanding professionals from every region, showcasing leadership, celebrating achievement, and promoting diversity across patents, trade marks, innovation, technology, academia, and law.

The Alliance extends this trusted global network beyond an annual publication, creating a vibrant year-round ecosystem where relationships continue to grow long after conferences and publications are complete.
